Professional Summary

Last year I finished a contract as a Junior Layout Artist at Industrial Light and Magic (ILM). In the fall of 2022, I graduated from Vancouver Film School in the 3D Animation and VFX Program; this education provided the foundation and technical skills needed for work in this industry. I then began a layout internship in ILM's Jedi Academy, which led to a contract working on a production. In 2019, I graduated with a Bachelor of Fine Arts, where I cultivated my strong work ethic and developed my artistic portfolio. I continue to learn and grow as an artist, through constantly refining my technical and creative abilities in drawing, computer animation and design skills in the industry.
